By -

Pearson Education Limited, United Kingdom, 2016. Paperback. Book Condition: New. 13th Revised edition. 276 x 217 mm. Language: N/A. Brand New Book. This text is designed for a three-semester or four-quarter calculus course (math, engineering, and science majors). Thomas Calculus: Early Transcendentals, Thirteenth Edition, introduces students to the intrinsic beauty of calculus and the power of its applications. For more than half a century, this text has been revered for its clear and precise explanations, thoughtfully chosen examples, superior figures, and time-tested exercise sets. With this new edition, the exercises were refined, updated, and expanded—always with the goal of developing technical competence while furthering students appreciation of the subject. Co-authors Hass and Weir have made it their passion to improve the text in keeping with the shifts in both the preparation and ambitions of today's students. The text is available with a robust MyMathLab(R) course—an online homework, tutorial, and study solution. In addition to interactive multimedia features like lecture videos and eBook, nearly 9,000 algorithmic exercises are available for students to get the practice they need. Please note that the product you are purchasing does not include access to MyMathLab(R). Students, if MyMathLab is a recommended/mandatory component of the...
