The purpose of this text is to reveal that an exact, central science of emotions exists based on a recently designed periodic table of the emotional elements that classifies all known emotions into 25 columns that simulate 25 cortical columns; mapping the general organized operational architecture. Titled the Columnar Listing for Understanding Emotions (CLUE)-brain evolves as a higher order of thinking; a progressive behavior educational system to achieve total psychological balance. The CLUE maps the cyclic functional connectivity between 17-25 cortical columns of 17-25 elemental core-actions that evolve(d) 17-25 elemental core-emotions. With children/ancestors acquiring self-consciousness, 17 coreemotions expand(ed) to 25. Serving all ages, this text includes chapters 1-3 for youngsters, chapters 4-13 for students/adults, and chapters 14-15 for research scientists. Both the CLUE abstract (248 words), and manuscript (15,375 words) are included within chapters 14-15. The CLUE-brain reveals the phylogenetic evolution of mankind s emotions, analyzes the evolution of emotion s development through one s life-course, and teaches the unknown study of core-actions/core-emotions. as single units of emotional consciousness that manifest, non-

Reviews

I actually started looking over this publication. It really is rally interesting through studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.
