Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Clinical Treatise on Diseases of the Liver, Vol. 1 of 3 With the present Clinical Treatise on Diseases of the Liver, it is intended to commence a series of Works which shall contain the results of my clinical experience and pathological observations. The manner in which I propose to treat the subject, will appear from the works themselves; and it therefore seems needless to discuss this any more in detail at present; it is only necessary for me to make a few brief explanatory remarks. At the present day, it is agreed, that the science of life is undivided, and that no real defined limits exist between the varying phenomena of health and disease, but that both are governed by the same laws. We endeavor to investigate the conditions under which disease takes place in the same rigidly empirical manner, that we study the general vital processes of which disease is merely a fragmentary constituent. In addition to simple observation at the bedside of the patient, we have recourse to the assistance of physical, chemical, microscopical, and experimental modes of investigation, in order to collect materials for the construction of a scientific system of medicine. There can be no doubt that a great advance has been made by this mode of research, which, although not novel, has at no time been adopted to the same extent, and with such ample means at our disposal, or attended by equally important results, as during the last ten years. Our general views of disease have been simplified since we have ceased to disconnect it from the phenomena of life, as something foreign and endowed with a peculiar...
