Date :2010-1-1. Application of the theme throughout the primary school mathematics teaching. is key. but also difficult. For teachers. parents and students the urgent need for a layman's language. learning and using applications written request supplementary questions. we organized a group with sufficient practical teaching experience. and word problems for primary education have a deep understanding of good writers. in accordance with the new class standard knowledge points are organized. prepared this self-training. giving top priority to the application questions series. This series of word problems into the author's understanding and perception of education. both can be used as self-learning. self-test materials. but also to help teachers and parents to better guide students to learn word problems. In addition. the amount from the book with the title of replication and self-test exercises. very suitable for students to learn while training. while thinking side as part of the consolidation of knowledge and skills to practice counseling books. Writing in the content on this series has the following characteristics: First. a simple explanation and practice both. There are three books - the sixth grade four volumes. According to a copy of the appropriate grade is divided into 14 to 20 chapters. Each chapter is introduced by the frequently asked questions around the classic kinds of questions to start to arrange the right amount of self-test phase. and a systematic and comprehensive Summary. Each chapter begins with a brief outline overview chapter. pointing out the knowledge of the structure and core of the problem. the knowledge in series into the system; and focus on such issues given the knowledge involved. source. classification. and basic staff...
